

Student Safety Reporting System

Whether it's bullying, discrimination, thoughts of suicide or witnessing a peer's dangerous behavior, students face a variety of threats. Give them a voice by making it easy to report any concern, anytime.

“We finally have a system that addresses the communication preferences of today's students. **It's easier and quicker for students and administrators.**”

— Business Manager, Vandalia Butler City Schools

Equip students and parents to share bullying and safety concerns or ask for help in three ways:

Report by Phone

Speak to a live attendant 24/7 or choose to leave a voicemail.

Report via Mobile App

Send details about an issue or concern right from a mobile device.

Report Online

Using a link on the district or school's website, fill out an online form.

Take Immediate Action

Reports describing an immediate threat to safety activate the PublicSchoolWORKS “urgent phone tree” and a PSW staff person will contact school officials until someone is reached.

Track Reports in One Centralized System

Every report is logged in your Safety Portal and designated staff are notified via email the instant a report is submitted. Administrators can initiate appropriate follow-up and manage reports to resolution.

Make Data-Driven Decisions

Administrative reports let you monitor safety trends by building and incident type. With all this data recorded, access it anytime to drive future anti-bullying and safety measures.

Access Free Resources

Free access to a safety reporting toolkit, complete with posters, stickers, and other resources to help you communicate this valuable resource across your district.

We really can help keep students safe. It starts by making it easy for them to speak up! Contact a PublicSchoolWORKS safety specialist today.
